

Harvest of the Month

Network for a Healthy California

PAPAYA

Knowledge of Nutrition

Papayas are packed with antioxidants that help protect against chronic diseases and inflammation.

Papayas are also a good source of vitamin C, folate, and fiber. They also contain papain, which is a natural protein-digesting enzyme. It helps fight against infections and supports healing wounds.

Studies also show it can protect your skin and reduce sign of aging like wrinkling, sagging, etc.

Try eating about 1 cup of papaya day.

Neighborhood House Association
